

Everyone loves to  
dine by candlelight

Lumea Candle Lamps – safe, long-burning, non-drip and smoke-free

# No hassle candlelight

Creating the right ambiance is key to the success of any restaurant, hotel or bar and Lumea Candle Lamps' distinctive range of designs will help you generate a truly unique atmosphere.

Everyone loves to dine by candlelight but restaurateurs hate the problems associated with using wax candles. With Lumea Candle Lamps there is no fuss – they are safe, non-drip, smoke-free and long-burning. They are simple to use and effective in creating a distinctive mood and lasting impression.

Simply choose from one of Lumea's exclusive lamp designs and order the appropriate Lumea Liquid Wax cartridges.

Take advantage of Lumea's overnight delivery service to ensure that you are never without candlelight.

For samples, quotes or to place an order please contact Lumea by phone on 0845 601 7532 or by email [sales@lumea.co.uk](mailto:sales@lumea.co.uk) or visit our website at [www.lumea.com](http://www.lumea.com)

**Choice** Lumea has a range of over 60 exclusive lamp designs so there is a style to suit every type of restaurant from formal dining to intimate bistro to relaxed bar or pub.

**Money-saving** Lumea Liquid Wax cartridges burn for up to 40 hours so the labour cost of frequent lighting, as well as the cost of clearing up spilt candle wax, can be saved. The cost per hour of burning Lumea Candle Lamps is lower than that of using most wax candles.

**More profit** Importantly, restaurants that use Lumea Candle Lamps take more money! When diners feel more relaxed they will stay for a coffee, liqueur or dessert.

**Safer** All Lumea Candle Lamps comply with the Uniform Fire Code (UFC) 2006 of the USA National Fire Prevention Association. This includes tests for stability, thermal shock and flammability if objects are accidentally placed on top of the lamps. Unlike wax candles, Lumea Candle Lamps never smoke, drip or smell and they immediately go out if knocked over.

**Cleaning** All Lumea Candle Lamps should be cleaned using a soft, dry cloth. Do not put lamps in the dishwasher.

**Samples** Samples of lamps are readily available for trial and testing in your restaurant, hotel or bar.

## Ambiance

"Good food and good service can keep customers coming back, but this must be complemented by a truly warm atmosphere to complete the dining experience"  
**FORTH FLOOR RESTAURANT, HARVEY NICHOLS, EDINBURGH**

"The small details in a restaurant are key, these lamps help to create just the right ambiance" **CHANNINGS HOTEL, EDINBURGH**

# Intimacy

"The little touch of Lumea lamps create a lot more warmth, intimacy and ambiance which are now key factors in running the restaurant"  
**THE HILTON, MANCHESTER AIRPORT**

"Lighting is always really important because of the ambiance it creates. That's the thing about ambiance – customers don't see it as much as they feel it" **KEEFERS, CHICAGO**

## Warmth

"Candle lighting creates warmth and intimacy. It has a presence that complements the table without overwhelming it. Our guests definitely stay longer and order that extra drink or dessert when they are relaxed and comfortable. Ambiance does that"
